

AMR INTERFACE

AUTOTEC - STUB SHAFT INTERFACE CONVEYOR

Autotec's Stub Shaft Conveyor is designed for full pallet movement from MiR 1350 or MiR 600. Photo eyes are integrated for safe pallet loading and unloading. Originally designed for transferring full pallets to stretch wrapping. Additional use applications include pallet staging and pallet transfer.

FEATURES:

- Rated for up to 3,000 lbs
- Forward and reverse drive capabilities
- Integrated photo eyes for pallet sensing
